

Southern Tier Library System Investment Policy

It is the policy of the System to invest funds in a manner that will maximize the security of principal, satisfy cash flow demands, and use approved methods to provide the highest possible return. All investments will conform to applicable laws and regulations of New York State.

Primary objectives of the Library's financial investments are:

* Preservation of Capital – The preservation of capital is the foremost objective of the investment program. At no time should the safety of the System's funds be impaired or jeopardized. All investments shall be undertaken in a manner that first seeks to preserve capital and secondly attempts to fulfill other investment objectives.

* Liquidity – The System's funds are to remain sufficiently liquid to enable the System to meet anticipated operating requirements.

* Return on Investments (Yield) – The Library's investments should generate the highest available return without sacrificing the first two objectives.

Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence might exercise in the management of their own affairs.

Management responsibility for the Library System's investment program is delegated to the Treasurer of the Board of Trustees, who is the System's chief fiscal officer. The Treasurer shall be responsible for the implementation of the investment program and the establishment of investment procedures, including adequate internal controls to provide a satisfactory level of accountability, consistent with this Policy. By an eligible "irrevocable letter of credit" issued by a qualified bank other than the bank with the deposits in favor of the government for a term not to exceed 90 days with an aggregate value equal to 140% of the aggregate amount of deposits and the agreed upon interest, if any. A qualified bank is one whose commercial paper and other unsecured short-term debt obligations are rated in one of the three highest rating categories by at least one nationally recognized statistical rating organization or by a bank that is in compliance with applicable federal minimum risk-based capital requirements.
